

The cat sat on the ____

Input token sequence

Tokenize

Token + position embeddings

Map tokens to numerical vectors

Transformer layer 1

Self-attention + feed-forward network

Transformer layer 2

Self-attention + feed-forward network

Transformer layer 3

Self-attention + feed-forward network

...

Output probability distribution

$P(\text{"mat"}) = 0.72$, $P(\text{"rug"}) = 0.15$, ...
